Examiner's Statement of Reasons for Allowance

Allowance

1. The following is an Examiner's statement of reasons for allowance:

The primary reason for the allowance of the claims in this case, is the inclusion of (a) Evans does not describe nor suggest an energy absorber made from a molded mat of fiber reinforced resin material wherein the molded mat has a density of about 600 g/m² to about 3000 g/m²; (b) mats of fiber reinforced resin material have never been used to form an energy absorber; and (c) Applicant submit that the energy absorber recited in claim 1 of the present application includes a novel and non-obvious use of a known material to make the energy absorber; in the Amendment/Remarks filed on 2/14/05.

Further, the limitation "an energy absorber made from a molded mat of fiber reinforced resin material wherein the molded mat has a density of about 600 g/m² to about 3000 g/m²" in the independent claim, in combination with the other recited limitations in claims supported by this application, which are not found in the prior art of record.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
